Companies are responsible for supplying the artwork for our website & banners, in addition,
any flyers or coupons to distribute. See special instructions on 2nd page.*

Thank you, we appreciate your support!

Banner & Sign Production Requirements

Dear Valued Sponsor:

Please note in order to produce a banner as part of your sponsorship, we will require a digital image of your logo and any information you would like placed on the banner.

In order to produce the best quality banner, the digital image needs to be in a vectored file format. The most common vector image file ends with .eps. Most companies can get this type file from the company or person that does their marketing. If a vector file can't be obtained, a JPEG image may work if the picture contains enough resolution. JPEG images MUST have at least 300dpi. Low resolution images or images copied from a website are not sufficient for producing a banner. To fit on a 3X5 banner, a JPEG image must be enlarged over 300%. If you are unsure if your image contains enough resolution for the banner, open the picture on your computer and magnify the image 300%. That is what will be printed on the banner. If the image still looks acceptable after enlarging 300% on your screen, then you can email the image. Once you have the proper digital image needed for your banner, please email the file to:

sponsors@sunrisegirlssoftball.com
